To Whom It May Concern - Letter of Reference for Kent Rueckert

Kent is currently a student in the Century College Cybersecurity, Virtualization, and Forensics (CVF) program. In the last year, I have worked with him in his capacity as Director of Technology for the Century College Student Senate. As Student Senate Director of Technology, Kent has overall responsibility for communicating student technology concerns and resolutions to Century students, engaging in monthly planning and strategy meetings with the college Senior Leadership team and guiding the development and planning for next year's Student Technology Fee Budget (slightly under two million dollars). Kent's support, guidance and communication skills have been especially valuable in this year's student technology fee budgeting process, as declining enrollments have led the college to seek ways to reduce costs while still providing technology services to enable our students to achieve their goals.

Kent has a clear vision for his future and an entrepreneurial spirit that will serve him well in his future endeavors. He works tirelessly to advocate for students, especially relative to their technological needs.

Kent also serves as student leader of several college clubs and organizations. He brings together people with wide varieties of interest to provide leadership, collaboration and social opportunities. I do not hesitate to recommend Kent for scholarships or future job openings. His strong technology skills, combined with his communication, planning and budgeting skills and experience uniquely position him for success. I would be happy to speak further with you regarding Kent. I only wish Century College currently had a vacancy in our Information Technology Services team for him.

A handwritten signature in black ink that reads "John M. Rohleder".

John M. Rohleder

Associate Vice President for Technology and Administrative Services/CIO
